Experience a Diverse Range of Activities

The Conference will offer a rich and varied selection of session types and other activities, addressing the diverse interests and needs of attendees.

Scientific Sessions

In-depth plenaries on a variety of topics such as LET optimization; Combining particle therapy with immunotherapy; Imaginga, and more focused on the latest advancements in particle therapy.

Educational Sessions

In-depth sessions covering different aspects of particle therapy: physics, clinics, biology, and combined sessions led by experts from the USA, Japan, Austria, Singapore, Switzerland, etc.

Keynote Sessions

Engaging talks from thought leaders and key figures in the field, offering perspectives on the current state and future directions of particle therapy in cancer treatment.

Oral Presentations

A forum for presenting your research and its clinical outcomes, which allows also interactive discussions and networking with the Conference attendees

Poster Presentations

An interactive way to showcase your latest findings by making them accessible and clear to a large audience. Posters become a focal point for dialogue and knowledge exchange.

Industry Symposia Sessions

Dedicated sessions are hosted by industry leaders, presenting the latest advancements, technologies, and innovations in particle therapy for cancer treatment.

Exhibitor Lounge

You are welcome to the area where leading companies exhibit their products, technologies, and services, thus allowing attendees to explore and interact with company representatives.

Sub-Committee Discussions

Delegates may participate in discussions and sessions related to specific sub-committees, which foster collaboration and shared decision-making.

Networking Opportunities

2 welcome receptions, a networking event, and a PTCOG 62 facility tour – all creating opportunities for attendees to connect and share experiences.

Synergy through Collaboration

Join us for PTCOG 62 & the 4th PTCOG-AO Meeting, a forum dedicated to the comprehensive study and exploration of the advances in particle therapy. Through extensive research, practice, and collaboration, we have curated an exceptional scientific program and educational sessions. We warmly invite you to be a part of this inspiring Conference!
