

PTCOG-ECR Plenary Session

“Open-Source Thinking: The Future of Data Sharing for Medical Research”

The PTCOG Early Career Researcher (ECR) Subcommittee is excited to present the **inaugural ECR plenary session at PTCOG 62**, focusing on the role of data sharing in advancing particle therapy research.

With an emphasis on open-source thinking, this session aims to explore the future trajectory of particle therapy research, its potential positive impact on clinical daily practice, and innovative pathways for upcoming generations of researchers.

Date: Thu, 13.06.2024

Session Time: 14:15 – 15:00

Room: Hall 406A

Discuss

Discuss and examine open-source methodologies concerning both pre-clinical data and codebases.

Evaluate

Evaluate the challenges and opportunities of data sharing and its role in the future of particle therapy.

Engage

Engage in a panel discussion focusing on the importance and practical aspects of data sharing.

The plenary session will focus on open-source data in clinical daily practice and pre-clinical settings.
